

Yisroel Krausz

Software Engineer

Available · Full-time · Remote / hybrid

Tyne and Wear, UK

yisroel@codecanvas.uk

+44 7481 438348

Modern web developer building production apps with React, TypeScript and Next.js — responsive interfaces, API integrations, authentication and cloud-backed features.

End-to-end delivery from first brief to launch: clarifying scope, shaping the product, and shipping maintainable code that people can rely on day to day.

Client-facing builder through Code Canvas, creating custom websites, apps and tools for UK businesses and individuals — with support that continues after go-live.

Practical collaborator who values clear goals, close feedback, and work that makes a real impact.

Work Experience

Code Canvas UK · Software Engineer

Oct 2025 – Present

- Delivered multiple client websites and web apps end to end — requirements, feature planning, build, testing, deployment and ongoing updates.
- Built responsive React and Next.js interfaces with authentication, API integrations and cloud-backed features.
- Ran client communication throughout each project, turning business goals into shipped product and iterating after launch.
- Owned project timelines independently across varied scopes — marketing sites, dashboards, internal tools and full product builds.

Key technologies: React · TypeScript · Next.js · Node.js · Firebase

---

BSD (UK) LTD · Database Developer

Oct 2025 – Mar 2026

- Designed, created and maintained production databases used across day-to-day business systems.
- Wrote and refined SQL queries, handled data fixes, and kept records accurate as systems grew.
- Built and updated lightweight frontend screens to view and manage database-backed workflows.
- Provided ongoing software support — troubleshooting issues, shipping small improvements and assisting staff with tools.

Key technologies: SQL · PostgreSQL · JavaScript · HTML · CSS · React

---

Your Perfect Car · Office Manager / IT Support

Nov 2023 – Sep 2025

- Built and maintained internal software packages used for bookings, records and day-to-day rental operations.
- Led and coordinated the car rentals team — scheduling, fleet management and keeping day-to-day operations running smoothly.

- Communicated clearly with customers and colleagues under pressure, handling high volumes of calls, enquiries and follow-ups.
- Covered office administration and accounting, including payments tracking, paperwork and cross-team coordination.
- Acted as first-line IT support — fixing tooling issues, explaining solutions simply, and improving internal workflows.

Key skills: JavaScript · HTML · CSS · Team management · Clear communication · Problem-solving

---

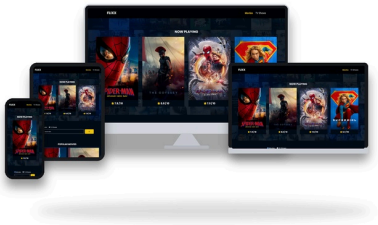

RicherValues · Property Analyst

Aug 2023 – Nov 2023

- Produced property evaluations and supporting analysis for US market clients.
- Researched listings, compared market data and prepared clear write-ups for specialist valuation services.
- Managed a steady case load under tight turnaround expectations while keeping reports accurate and consistent.

Key skills: Research · Market analysis · Reporting · Attention to detail

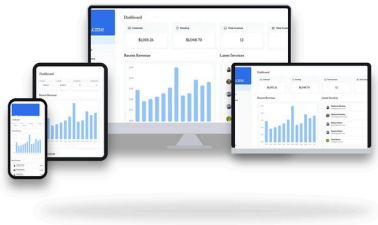

Selected Work

Movie & TV Discovery

Born out of evenings lost to deciding what to watch. A quieter way to browse without the usual runaround.

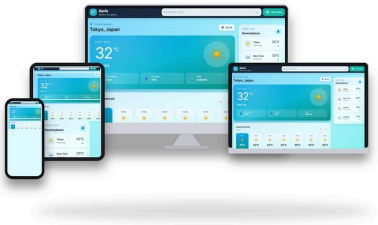

View project

Financial Operations Manager

Tracks invoices, payments and outstanding balances in one place — so what's owed isn't buried across spreadsheets and email threads.

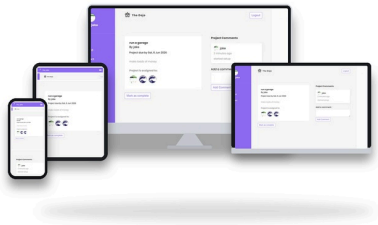

View project

Weather Forecast Dashboard

Aimed at travellers who keep getting caught out by noisy, ad-heavy forecasts. Needed something calm and reliable to check conditions before heading out — without the usual clutter getting in the way.

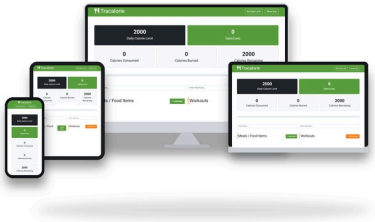

View project

Team Project Workspace

A team lead asked for help after work kept slipping between chats and sticky notes. The brief was simple: one shared place so the group could see what was in motion without constant chasing.

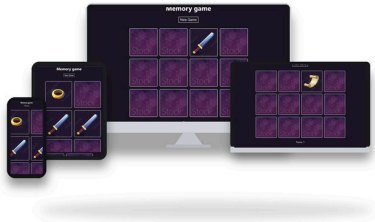

View project

Calorie & Workout Tracker

Built for someone who wanted a lighter way to stay honest about eating and training — without signing up for three different platforms just to keep a basic habit going.

View project

Memory Matching Game

A short break from heavier screens — something light to open when the day needs a pause. Nothing fancy, just a small diversion that felt worth making.
